Did you hear the one about?By Kindle CustomerIt is hard to write a review about a joke book because you can't really talk about the main characters, The setting, or the plot of the story. What I can say in reviewing this book is I had a good time reading a few pages at a time over several days enjoying a laugh, a chuckle, a groan, or wtf. There are some groaners in this book for sure, but one man's groaner is another's laugh riot. If you are looking for dirty jokes this is not for you. If you want jokes that you can tell to kids and adults that won't embarrass you or your audience then check this one out.3 of 3 people found the following review helpful. Laughs for the entire familyBy Book CollectorWe just received this book and already have been having a lot of fun with it! The jokes are appropriate for an entire family - even young children will find many of the jokes funny. Some of the jokes just make you smile, while others make you laugh til it hurts. My kids (ages 8, 10, and 12) enjoy telling jokes and they have been reading through this book on a daily basis to find new favorites. My youngest enjoys the play on words the most - for example, "How do you put a baby astronaut to sleep?" (Rocket). Or "What did the baby light bulb say to its mother?" (I wuv you watts and watts). The book is broken down into different categories/chapters, so you can find jokes and riddles easily. Overall, I think this is a fun book to have around the house for kids to peruse.0 of 0 people found the following review helpful. Good Children's joke bookBy tkgrmaThe book arrived within the quoted time, and was in very good condition. The jokes and puns are just what I expected, mostly for children and the

young at heart. Of course I haven't read the whole thing yet. I just got it. But it is as I expected. Thanks looking forward to reading more...
