All Wines Are My WineBy Sandra DammFor adults who have read the classic Are You My Mother to children, they will appreciate and get the parody for Are You My Wine. Even for people who have not read the childrens classic, this is a wonderful way to explore wine. I am typical of most people, in thinking that I dont know enough about wine, I will mispronounce the names of different wines, and there are unique ways to describe wine. Because Are You My Wine, is written like a childrens book with talking animal characters, it

dispels all those ideas, while providing factual information about wine in a fun, easy manner. With a funny commentary, *Are You My Wine* takes us through the most popular wines, noting what to eat with them from Pinot Grigio, Sauvignon Blanc, Chardonnay, Riesling, Pinot Noir, Merlot, among others. There is no wine lover who won't learn something from this joyful book, and someone new to wine will learn a lot! Highly recommend it! 0 of 0 people found the following review helpful. perfect starter book
By anisa alamia This is the perfect introductory book for people who want to know a little bit more about wine but are intimidated by the tomes out there. Even shorter books that promise to just cover the basics so you can get started can't seem to help themselves, running away with every type of grape in every type of location that makes wine and the time of year that is best to pick the grapes, etc. UGH. Every region, ok, yes, it does make a difference. But it can be overwhelming if all you really want to know is, which wine will I generally like and should I eat it with this kind of food? This book is EXACTLY that. It glosses over each wine in broad strokes, but is detailed enough that you wouldn't buy a Sauvignon Blanc when what your taste buds really wanted was Chardonnay. 0 of 0 people found the following review helpful. By Caroline This book is so cute! I love the super-fun illustrations and the way the story guides you through Penguin's experience with all the different wines. As a non-wine drinker, it was a great primer in wine. Just enough information to get a sense of each type of wine but not so much as to overwhelm. The book teaches you about Champagne, Pinot Grigio, Sauvignon Blanc, Chardonnay, Riesling, Rose, Pinot Noir, Merlot, Zinfandel, Cabernet Sauvignon, Malbec, Syrah and Port. It's also hilarious to see all the different animals drinking wine. I'm planning to use this book with some bottles of wine to make a cute Christmas gift.

A delightfully illustrated spoof that demystifies wine and helps you understand the key traits of different varietals
When Penguin finishes work for the day, he hurries off to the wine bar in search of his ideal wine. With the help of Bunny, Cat, Wolf, Bear and his other friends, Penguin samples and learns about the most popular wine varietals. Follow Penguin's journey in this delightfully illustrated spoof that simplifies and demystifies wine while teaching you tasting notes, food pairings and other interesting facts.
