He had me rolling at a couple of points. I think this is a really honest view of how men operate. However, I have a hard time totally buying that EVERY MAN thinks this way all the time. For example, Matthews claims that good sex is the foundation for all men's romantic relationships with women. He says that men date to have sex with as many women as possible, each of which they rank based on their sexual experience. Essentially, he says if a man likes having sex with you, he'll call you again. If he doesn't, he'll drop you like a ton of bricks. He believes this is where the "He got what he wanted" thing comes from. He advises women that the best thing she can do is put out early when she is dating a man, otherwise a man will get sex elsewhere. I understand that men are sexual beings and that they evolved to be so for a good reason, but I also believe that lots of men have evolved past this kind of thinking. This book sounded more like the way a teenage boy or young 20-something aged men would look at dating. Anyway, it was a quick, funny, and pretty informative read. I enjoyed it! 0 of 0 people found the following review helpful. At the very least, a truly entertaining read...By Kindle CustomerWould I recommend EVERY MAN SEES YOU NAKED: AN INSIDER'S GUIDE TO HOW MEN THINK to other adults?...Yes, it is hilarious, but I'd definitely say take the information "facts" with a grain of salt. Because, although I do believe a lot of what David states is probably true for many men, I think the generalizations are pretty liberal. There are a few blanked statements that would be more a personality trait than an "all men think this way". Just because you're female and moderately attractive doesn't mean that every man in your life has at some point wanted to sleep with you; because not all men find all types/ages/races/shapes attractive, it's just not true. But yes, if you're a super hottie with a slamming body, then yes of course every man that crosses your path (young or old) probably has or will get a reaction from their nether regions (whether they like it or not). There were a few other points I'd take issue with in this book (as far as my hubby goes at least) but David did offer the disclaimer that he is generalizing and realizes that although his generalizations do apply to most men, that of course there are always exceptions... I have extra sensitive guy and I'm more strait forward than many women, so we often joke that I'm the dude in the relationship. Aside from that, I'd say all the actual bedroom stuff and what men want is probably spot on. I think David does a pretty good job nailing down the communication issues between men and women as well. And whether you choose to take some, all or none of the information provided as fact, you're sure to have a good laugh either way. 2 of 2 people found the following review helpful. funny easy read By Susan This is a funny, easy read. The reason I bought it was because a guy friend of mind recommended it to me. He said that it was very accurate and he felt like women should read it to understand how men really feel about sex when first dating a woman. I would especially recommend it to women who are dating, since most of the advice would be applicable to dating situations. I've found that men value women who "understand" them, the same way women value when they are understood.

Employing equal measures of wit and wisdom, Emmy Award-winning composer/writer/producer (The Young and the Restless, The Nanny, Half Half) David M. Matthews leads you on an amusing yet highly informative journey through the seamy underbelly of the male mind. Shameless in its honesty and lacking any pretext of political correctness, Every Man Sees You Naked explodes the myths about men and answers the questions you've been dying to ask but didn't quite know how. Among other things, this book will reveal: The disconcerting truth about why guys ask you out, the surprising things men like and what they really hate, what men truly look for in a woman, what guys secretly want in bed, how to understand what a man is actually saying, what motivates guys to behave in the odd way they do, the "dirty little secrets" the men in your life are keeping, who "man's best friend" really is (and no, it's not you, the dog, or the TV remote), why almost everything you believe to be true about men...isn't Finally the truth is just a few page turns away. So, why are you still wasting time reading this description?

About the Author David M. Matthews' career in Hollywood has been varied, to say the least. He served as Musical Director for three years on the CBS soap, "The Young and the Restless" for which he won an Emmy for Outstanding Musical Direction and Composition. During his tenure at "YR," he also executive produced a well-received album containing performances by several of the show's stars, distributed by Nuance-MCA Records. He then moved on to sitcom writing, where he penned scripts for "The Nanny" (CBS) and "Living Single" (FOX), as well as staff writing and producing gigs on "For Your Love" (NBC/WB), and "Half Half" (UPN). Subsequently he successfully teamed with filmmaker, Michael Bayouth on the screenplays for "A Howl In One" and "Kidnight" and helped produce the documentary, "A Musical Journey To Freedom." He has continued to write music for TV and film, composing dramatic underscore for "Valhalla," "The Last Frontier," "Western Avenue" and "Wave Babes," to name just a few. David, a transplanted Ohio native, currently resides in a Los Angeles suburb with his wife, Carla. He recently directed the drama, "Ripe," wrote and produced an episodic mockumentary, "When Actors Need Money," for Strike TV, and has just wrapped production on a reality show spoof, "How We Think They Did It." His first book, "Every Man Sees You Naked: An Insider's Guide to How Men Think," inspired by a lifetime of being the "relationship advice guru" for his numerous female friends and co-workers, was published April 15, 2008 by Wheatmark. His directorial feature film

debut, "N-Secure," was released to theaters nationwide, and is currently available on DVD and Blu Ray.
