**From Flame Tree Publishing : Exotic Birds Postcard Book: Colour by Numbers (Colouring Postcard Books)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Exotic Birds Postcard Book: Colour by Numbers (Colouring Postcard Books):

Dreaming and relaxing, creating gorgeous landscapes of greens and blues, oranges and reds, this beautiful postcard book will give you many hours of pleasure, and calm. And you can send your wonderful creations by post. With a range of challenging and more restful designs Exotic Birds takes you on an intimate journey where the satisfaction of

creating beautiful artworks is mixed with the joy of rediscovering colouring by numbers. You can use a wide variety of pens: from gel and pencil, to pigment and crayons, from ballpoint and rollerball to highlighters, although it's best to avoid the heavy felt pens. Each page has a colour chart to follow and is perforated near the spine of the book, so you can tear out and frame, or simply place your wonderful creation on the walls of your home, perhaps even send them as a gift to your loved ones. You'll have to make a choice about which design to make, if you want to tear it out, but with 25 to choose from there's more than enough to help you make your decision. Send, or frame: bring the Ink to life!
