Very enjoyable and different By djibouti I bought this book following the recommendation of Brandon Sanderson, my favorite author who is narrated by Michael Kramer, my favorite narrator ;). It was a nice departure from the usual fantasy/science fiction novels I read. That is to say, this is clearly science fiction, just not the kind I usually read. I read the book pretty quickly. It drew me in and made me always want to read one more chapter...0 of 0 people found the following review helpful. Felt a little lacking By Customer This had

a great hook, but it was never fulfilled. I was hoping for something akin to Cronenberg body horror, but the changes were never much more than vague plot descriptions. "Oh, character A now looks like character B. He's a totally different race/gender/species." That was the extent of it. The concept of loss of self, of identity, is pretty frightening, but it was basically reduced to quick descriptions in which the characters didn't seem to care one way or another about it. 0 of 0 people found the following review helpful. ... as a satire but it wasn't really all that funny. The premise was intriguing but the characters weren't really as caricature-ish as you'd expect from a good satire.

Dan Wells's *Extreme Makeover* is a satirical new suspense about a health and beauty company that accidentally develops a hand lotion that can overwrite your DNA. Lyle Fontanelle is the chief scientist for NewYew, a health and beauty company experimenting with a new, anti-aging hand lotion. As more and more anomalies crop up in testing, Lyle realizes that the lotion's formula has somehow gone horribly wrong. It is actively overwriting the DNA of anyone who uses it, turning them into physical clones of someone else. Lyle wants to destroy the formula, but NewYew thinks it might be the greatest beauty product ever designed--and the world's governments think it's the greatest weapon. New York Times bestselling author Dan Wells brings us a gripping corporate satire about a health and beauty company that could destroy the world in *Extreme Makeover*.

"Reminiscent of Vonnegut at his most subtly biting, Wells's novel should find favor with speculative and mainstream readers alike." - Publishers Weekly About the Author DAN WELLS grew up in Utah, spent a few years in Mexico, and now lives in Germany with his wife and children. He is author of the critically acclaimed John Wayne Cleaver series, *The Hollow City*, and the popular *Partials* Sequence of young adult books.
