Whether you are fifty or five; imagines a world with fairies and dragons. This is Volume TWO with double the drawings to colour. Have fun and imagine yourself slaying the dragon or having a conversation with one of the lovely fairies. Included are some favourite drawing by Lee Pryke and you can commission Lee to create a colouring book or art piece, just for YOU.

About the AuthorIn 2013 Lee discovered that doodling can turn into art and a way to have fun and release the 'inner child' that resides in each one of us. She began to doodle with passion and it has manifested into colouring books, art

pieces, and teaching classes on the benefits of doodling. Doodling and colouring is so much more. It is a fun way for relaxation, stress relief, and memory retention. Remember what it was like when we were children with no fear or expectations and just did things because it felt good and made us smile. 'Let the inner child out to play' is Lee's motto to live by and she adds, one childhood action important to bring into our adult life, is playful art.
