**Karl X. A. Raeder : The Conservative's Guide To Understanding Our Friends The Liberals** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Conservative's Guide To Understanding Our Friends The Liberals:

0 of 0 people found the following review helpful. Clever, humorous, but somewhat repetitive By Stephen T. Havert The author takes a tongue-in-cheek approach to analyzing the different approaches to life and politics taken by liberals vs.

conservatives. There are a lot of broad generalizations but he also makes some salient points that seem pretty accurate. After a while, though, I tired of his rhetoric and tendency to repeat the same points over and over. 1 of 3 people found the following review helpful. Conservative's Guide to Understanding Liberals By Mike Merrill If you've ever wondered why liberals think the way they do--and how to actually communicate with them--this book will help. No, the author doesn't take the 'slap some sense into them' approach--although we're all tempted to do that on occasions. Instead, he delivers a thorough analysis of the liberal mindset, with a deep dive into liberal philosophy. My favorite part was "Fun with Liberals (Jokes and Laughs). If reading this book doesn't help you talk some sense into the liberals in your life, then you can always throw it at them!

A humorous light-hearted look at liberals and liberalism from a conservative point of view. Politics, environmentalism, creationism, animal-rights and culture, among other topics, are the various venues for witty and irreverent discourse on liberalism. There is also a new metaphysics, or understanding of human nature that provides a new and unique understanding of what it means to be a human being as well as a liberal. With this new insight into why liberals are so goofy, this is a book that liberals will not find funny at all, but will find educational. The ingenious philosophical picture painted by the author Karl X. A. Raeder will give the reader a previously unknown take on liberals and the world of liberalism. You will never look at liberals the same way again, or conservatives either for that matter. Conservatives are also skewered, but in a more compassionate and caring manner. This book is not just humorous, but a thoughtfully written tome that will make you think and reflect on what you know and understand about life as much as laugh about it. The book is a fun and easy read. And you will want to read many times as you will pick-up more and more with each read and laugh harder each time.

About the Author Philosopher and student of human nature, Mr. Raeder has taken a brand new and unique view of life and made it accessible to everyone. A Chicago native Mr. Raeder is a retired businessman.
