You'd have to be a Muck Savage not to be havin' the Craic with this book!By DraxI got one of these for myself, and was so pleased I ordered a bunch as gifts for my family and friends. I put them on the table with some color pencils after dinner at a family gathering, and it was great to see everyone paging through the book, laughing and reading the words out loud. SUPER FUN to watch all the adults busy coloring and having such a good time! The images are lighthearted and fun- rustic lettering with designs that are great for coloring to relax, not "insanely busy" like so many of the adult coloring books available now.1 of 1 people found the following review helpful. Fun coloring book with glossary in the backBy Anne WorthI bought this for my daughter who is 28 because we did some DNA testing and found that she has some Irish in her DNA. She loved it and

said that she definitely plans to color in it. It was a bit of a gag gift, but she loved it. So I'm happy with this purchase. I really like the glossary in the back too.
