A perfect gift By Brandon I managed to find this book by accident, but the second I saw it I thought it was a must have for my girl friends up and coming birthday. With the price being only \$10 and the whole idea I just found to be appealing. When her birthday did come around she of course got all her gifts, but this one remained wrapped until the end. When she first opened it she looked at the title and then checked out the back (she told me she thought it looked interesting, knowing I would not pick out something dumb). After a quick look through, she flipped it open and it took her a second, but she got the joke. She absolutely loved it. I defiantly

recommend this to anyone with a lawyer friend, boss or family member.0 of 0 people found the following review helpful. Greatest bookBy HFThis is just about the funniest book ever, I think every lawyer should have it. The title catches almost everyone's eye, and then the pages inside are all blank! I work in a law firm, and I keep this book displayed on my desk. I've gotten many compliments and laughs on this book. We've been contemplating distributing it to new lawyers that join the firm as a welcome gift!0 of 0 people found the following review helpful. Funny!By J. ArenaIf you love a lawyer or love to hate a lawyer, this is the perfect book for you!Yes, it's a blank book. No, it's not meant to be devistatingly cruel. It's just a funny gag gift, and the truth is I only wish I had thought of it first.

Humorous blank book intended to give the recipient lots of laughs.
